**Phone/** 866.512.1715

**Fax/** 818.706.7728

a **paperlessUSA, Inc.** venture

## Electronic Tire Registration on the Fly!

Tire Recall Registry has developed and is ready to deliver tire registration on the fly – that's right, **enter required data on a wireless Internet tablet !!**

### Nokia770 Wireless Application

With the Nokia 770 Internet Tablet TRR registrants can register tires right where tires are being mounted in the garage. This technology speeds the process by collecting and registering TINs (tire identification numbers) via broadband access over WI-FI. **The Nokia 770 Internet Tablet gives you instant wireless access to the Internet.**

#### Spotlight

The Nokia 770 Internet Tablet is easy to use and easy on your eyes too, with a truly portable design, fashionably discrete brushed metal cover, and an ultra sharp widescreen display that's optimized for viewing online content.

#### FAQ Internet Connectivity

**1. How does the Nokia 770 Internet Tablet connect to the Internet?** Internet access with the Nokia 770 Internet Tablet can be established if you have a Wi-Fi network access available or if you pair it with a compatible Bluetooth phone that is connected to a cellular digital network (i.e., SPRINT).

**2. What is WLAN/Wi-Fi?** Wireless local area network (WLAN) is a network access technology becoming increasingly common around the world. It allows users with portable computers and wireless devices to access network resources wirelessly, at home or in public spaces.

**3. How do I use my phone for connecting to the Internet with the Nokia 770 Internet Tablet?** Using your phone as a modem requires that you create a Bluetooth connection between the Nokia 770 Internet Tablet and your compatible Bluetooth phone. Your phone provides Internet access using GPRS/EDGE/CDMA or 3G networks.

**Most importantly, the process is entirely paperless! TRR gathers the data, sends it directly to the target manufacturer and mails or emails a Certificate of Registration to the Consumer.**

**Contact your support team at TRR for more information!**
